Women Endowing Education (W.E.E.) is a sub-group of the Blue Springs Education Foundation. The concept of this group is to bring together a number of influential women in the area who, by donating a small amount individually, can make a significant impact on education together.

By joining W.E.E., you can be as involved as you would like. It could be as simple as attending a social event and enjoying new friendships, or you may become more involved by serving on a committee that reviews and recommends the projects for consideration or plans an event.

All W.E.E. members will vote on the project which will receive the Women Endowing Education grant. Our hope is that members will be willing to commit to the annual \$300 donation for at least three years. With 100 members, a \$30,000 grant can be awarded to Blue Springs School District annually.

2011-2012 Registration

BSEF Advisory Board
